Regarding this transaction and the choice of WellBe as their new headquarters for their 2,500 collaborators from *Serviços Centrais*, CGD explains: *"Our decision-making process, involving valuable input from our collaborators, emphasized the importance of selecting a location with excellent public transportation. At CGD, we are committed to providing an inclusive and sustainable workspace, evident in our choice of a building with an A energy rating, BREEAM and WELL certifications, and accessibility features for individuals with reduced mobility. We look forward to the completion of this move in 2026 and the positive impact it will have on our team and operations."*

The transaction demonstrates Atenor and BESIX RED's international reach, access to regional sources of capital and international project partners.
