### HIGHLIGHTS 2022

2022 was marked by significant achievements for the real estate developer across Europe, including :

## BELGIUM

### *Transaction of prime asset in Brussels*

The sale of CSM Properties SA, holding the Cours Saint-Michel site in **Etterbeek, Brussels** to the United States Government, with partner Immobel, contributed significantly to the financial performance. This transaction highlights the quality of the exceptional site location, identified in 2018.

BESIX RED conducted strategic and impactful new acquisitions:

- By acquiring the shares of the company Stampen, holding the office building located at the Boulevard du Souverain 360 in **Auderghem, Brussels**. This project consists in the reconversion of an obsolete office building into a high-end residential project of 48 apartments. Souverain 360 is a prime example of circularity, fitting into BESIX RED's ESG strategy.
- By securing the acquisition of a 5,300 m<sup>2</sup> office building with a strategic CBD location in **Brussels**. Named The Lighthouse, this development will consist in the complete restructuring of dated offices into a sustainable and state-of-the-art office project of 5,600 m<sup>2</sup> benefiting from breath-taking views of the Brussels skyline. In line with BESIX RED's ESG strategy, it is conceived to reach BREEAM 'Outstanding' and WELL Platinum certifications,
- By securing a commitment with Securex for the development of a site located next to the 'Watersportbaan' in **Ghent**. The site will become a 8,700 m<sup>2</sup> residential development of 115 student units and 49 apartments.

I would like to highlight particularly the successful collaboration we have had with the municipality of Amsterdam. It shows that having the public and private sector work hand in hand leads to great and purposeful developments for the city and its inhabitants. This should be an inspiration for several other European cities. We are also thankful to the MIPIM jury and attendees who voted for Sluishuis.”*
